Have you thought about:

- Member Service area forms
- CD Disclosures
- Membership Applications
- Teller area forms
- Consumer Loan Forms
- Home Equity Disclosures
- Real Estate Disclosures

Your investment in electronic forms is just that—an investment. You will see returns immediately by eliminating stored inventory, linking the data from your powerful Ultradata[®] system, and creating a professional image for your credit union.

We can help you streamline your operation by developing document sets which group documents together. For example, you can create a document set for leased vehicles which contain all the required disclosures giving you the piece of mind that nothing will be forgotten.

We also provide a very attractive maintenance plan that allows you to make as many changes to your forms as you like during the plan period. Visit our website at www.formsdesign.ws for more details.

With all the benefits electronic forms can offer—customization, on-demand printing, inventory elimination, data integration, and more—you're probably wondering how it all happens. Once you've made your decision to convert to electronic forms, these steps will lead you toward complete integration:

1. You'll send the original forms to us in hard copy format.
2. You'll send us your loan types, purpose codes, security codes, insurance code definitions, insurance rates and any other unique information that we'll need to program your forms.
3. We'll begin creating your custom software which will produce your professional looking forms.
4. We'll send you the program via email which will be uploaded to your test PC.
5. You will test the forms and we will make your desired changes.

We pride ourselves on our personal service and quick response. We thank you for the opportunity to partner with you on your forms. We will work closely with you to make this project a successful one.
